About Us

The University District Community Development Association, Inc. (UDCDA) is concerned about the quality of life in our neighborhood and the community-at-large. We are committed to making the University & Delaware districts a community of choice by stimulating growth and revitalization through community and economic development efforts.

If we are unable to provide a service, we have an extensive referral list to assist households reaching all potential programs and services that may be available to them. In addition, we offer a variety of human service programs at the Gloria J. Parks Community Center, 3242 Main Street Buffalo NY 14214. This resource directory was produced (in whole or in part) with the assistance of the City of Buffalo / City of Buffalo Urban Renewal Agency through the Community Development Block Grant and/or HOME program (s).

Hours of Operation

Housing Department

Monday – Thursday 9:00A.M. – 4:30 P.M.

Gloria J. Parks Community Center

Administrative Offices: Monday – Friday from 9:00 A.M. – 6:00 P.M.

Gym, Cardio & Fitness Room: Call for Updated Times

Our Programs

Community Development Block Grant Programs

Acquisition – Rehab Program – 50/50

Low-income first-time home buyers who are purchasing homes in the City of Buffalo may receive a conditional grant for one half of the rehab cost, up to a maximum of \$25,000, to assist in the rehabilitation of an existing one-or two-family home located anywhere in the City of Buffalo. Under the 50/50 program, city funds will be used to match private financing for renovations to bring the property into compliance with local standards and lead based paint hazard reduction requirements.

Funds are provided as a ‘conditional grant’ with a ten year owner-occupancy requirement, In order to ensure the recapture/repayment of public funds. If the program conditions are not met, the City will retain a mortgage interest on the property for the ten year term of the loan. During the loan term (or “recapture period”) the homeowner must occupy the property as his or her principal place of residence. The funds provided must be repaid if the property is sold during the recapture period, or if the requirement is not met.

The program is also available to assist income qualified households who own:

- Property in need of major repairs that has been (or will be) purchased through In Rem tax auction, a bank foreclosure, HUD of FHA sale, or private sale or transfer of title within a family,
- Property with multiple emergency conditions, and property not located on a target street,

- Property with emergency conditions and letters of violation that have been referred to housing court.

Note – properties in targeted areas will be assisted through the standard rehab loan programs.

Down Payment and Closing Cost Assistance - First Time Home Buyers Program

Eligibility

1. The applicant must be an income-eligible first-time homebuyer, that is, an individual and his or her spouse who have not owned a home during the three-year period prior to the purchase of a home.
2. The property must be a one-family dwelling located in the City of Buffalo that is generally in good condition with no major housing code violations or lead based paint hazards.
3. Verification of household income must be supplied. To qualify, applicant households must meet the federal income guidelines for low income households.

Financial Assistance Limits and Terms

Funding will be provided as a deferred payment, zero percent interest (0%) loan/conditional grant of up to \$5,000.00. If the purchaser resides in the home for the full five-year term of the loan, the loan will be forgiven and no repayment is required. The assistance will be available to income-eligible homebuyers obtaining mortgage financing for the purchase of a home. The property to be purchased must be located within the legal limits of the City of Buffalo.

Emergency Repair Program

Eligible Repairs Include the Following Emergency Conditions:

- Roof Repair or Replacement (must be significant deterioration OR water leakage into the home) is available only to VERY LOW income households or to low income senior or disabled homeowners
- Break in Sanitary System (house sewer and house drain)
- Break in Water Service (Main water supply from the house main shut off valve to the City of Buffalo water main)
- Electrical Hazards at Main Panel ONLY
- Hazardous Chimney (must be in imminent danger of collapse)
- Defective Heating System
- Defective Hot Water Tank
- Defective Gas Lines
- Water Meter Installation

General Program Qualifications for all Community Development Block Grant Programs

- Homes needing more than one of the above-listed repairs will NOT be eligible for assistance.
- Households with more than \$20,000 in financial assets will NOT be eligible for assistance.
- Households in arrears for Water, User Fee, City or County Taxes will NOT be eligible for assistance. Payment plans for arrears will only be accepted if the total amount due is less than \$3,000.
- Income documentation must be provided for ALL members of the household.

- If the homeowner owns ANY other property (vacant lots may be allowable), they will NOT be eligible for assistance.
- For the Emergency Program, please understand that this assistance is NOT A GRANT. It is a CONDITIONAL LOAN that may require repayment, at zero percent interest over a period of ten years, depending upon household income. Even if your household income is at such a level that does not require repayment, a mortgage will be filed with the Clerk's Office in the full amount of repairs, only to be discharged after a ten-year retention period. Other qualification will apply. To learn more and complete the prescreening process, please contact our Housing Department.

Community Services

Silver enrichment Program

The Gloria J. Parks Silver enrichment Program offers a variety of activities that keep our seniors happy, active, and involved! Our program runs Monday through Friday, from 10:00 AM until 1:00 PM. It is a great place to meet new friends and share new experiences.

On any given day you can walk into the senior room and be greeted by warm smiles and friendly faces. You will be offered a hot cup of coffee or tea, and you will be asked to join in one of their various daily activities. If the room is not bustling with conversation then it must be time for bingo. Whether they are playing cards, Wii bowling, exercising or just talking, the seniors here are always having a good time.

A typical day in the Silver Enrichment Program starts out with coffee and conversations. The seniors bring cookies or crackers to snack on while they settle in to playing cards or bingo for the morning. Delicious hot meals are provided by the Erie County Nutrition Program and are served at twelve o'clock each day. The Erie County Nutrition Program has been a main part of our program for several years and has perfected the art of making tasty, healthy and nutritious meals. Meals low in salt and sugar are offered for those who have special dietary needs. The meals consist of a main dish, vegetables, milk, bread and a delicious dessert. There is a wide variety of meals, so there is no risk of getting bored with the same old thing day after day. The program also offers one-on-one nutrition counseling with registered dieticians. The dieticians conduct monthly workshops and discuss a variety of nutrition and health related topics concerning seniors.

Erie County also provides the seniors with a fitness instructor. Every Monday at 11:00 there is a guided exercise class. The exercises are designed specifically for seniors. On the first Tuesday of the month, we offer blood pressure screenings. We are fortunate to have Ms. Margaret Frainier, who is a registered nurse, willing to donate her time and expertise. All results are confidential.

Every month there are birthday celebrations as well as parties for all major holidays. During these events, the seniors enjoy games, decorations, prizes and more. The seniors enjoy going on picnics and field trips several times a year. Past trips have included Beaver Island, the Miss Buffalo boat ride and luncheon, the Corning Museum of Glass and more. New faces are always welcome. Stop by and check out the program for yourself!

The Gloria J. Parks Community Center staff is dedicated to making the Silver Enrichment Program a second home for its bustling senior population!

Athletics Program

The staff of the Athletics Department at the Gloria J. Parks Community Center believes that physical activity is an essential part of life because it keeps the mind and body active. You have to think on your feet, you must stay alert, and most importantly, physical activity can develop your skills in any sport.

This recreational facility offers its members the opportunity to work out in fields of strength training, cardiovascular, and ground exercises. Our staff is always available to anyone in need of assistance for gym rentals, instructions on how to operate the equipment or any other services offered in this department.

We offer various afterschool athletic events for elementary level to secondary level students such as: Basketball, Flag Football, Floor Hockey, Unicycling, Table Tennis and Chess. In addition, open gym, working out in the fitness room or the Basketball Court is available for **MEMBERS ONLY**.

For information on becoming a member, please contact the athletics staff at (716) 832-1010, Ext. 205 or the Receptionist at (716) 832—1010, Ext. 200.

Come check us out and see what we can do for you!

Youth Program

Our youth programming is open to all children in the Buffalo area including those of public, private, and charter schooling. In the fall, winter, and spring we offer after-school programming for children ages 6-11. In addition, we offer summer programming for youth which consists of a variety of activities aimed at strengthening a child's mind and improving their character.

During afterschool programming, we aim to address every need of our participants, whether it is emotional, social, or academic. When the children arrive they are provided with a nutritious snack and a few minutes to relax and wind down from a hectic school day. From 3:00 P.M. - 4:30 P.M., the children receive tutoring and help with homework; followed by an enrichment activity from 4:30 P.M. to 5:30 P.M.

At the beginning of the school year, the children are offered a choice of a series of enrichment activities including, but not limited to: Science, Art, Group Games, Unicycling, Break Dancing, Basketball, and Flag Football. The children rank the activities from most to least desirable. From that information, their after-school schedules are created. This type of modular scheduling currently takes place Monday-Thursday. On Fridays, we have established a day of malleability and creativity, that we call Fun Friday. The children are encouraged to make suggestions for Fun Friday, choosing activities that have components which are entertaining as well as contain educational concepts. At a recent Fun Friday, the children were instructed in the making and decorating of cupcakes. Both the cupcakes and the frosting were made from scratch. This enabled the children to fully appreciate their work, learn valuable baking lessons, along with learning patience and team building skills.

Children can benefit from specialty programming offered by our supportive services which takes place after the general after-school program. Currently, we are offering chess lessons orchestrated by a certified National Chess Federation Instructor, Michael McDuffie and table tennis lessons under the supervision of Ray M. Nagel, a USATT certified instructor and professional competitor. We seek to offer new programs as opportunities arise or if there is a heavy demand from the community to offer a particular type of programming.

During the previous summers we have offered a unique science and sports camp which was offered to various community organizations in the Buffalo area. Our goal was to offer quality programming to other community centers that were either lacking a summer program, or offer new opportunities to other community organizations to expand on their current program. The sports program was designed to teach children about the fundamentals of different kinds of sports as well as sportsmanship.

The science program was predominantly aimed at teaching youth about urban environmental Science, through an inquiry based teaching method. The objective of this program was to enlighten them on the existence of Science in

all facets of their lives, even in their own back yard. In addition, they learned about other areas of Science such as chemistry, biology, and physics. Once a week, a guest speaker from a scientific institution came to the Gloria J. Parks Community Center to give the children a look at the professional world of Science.

Our youth program has doubled since last year, and has a plethora of opportunities. Everyone is always excited and anxious to arrive at the Gloria J. Parks Community Center because they feel each day provides a new exciting experience for them. The summer program was a massive success, serving hundreds of youth, and met by the community with great enthusiasm.

The Gloria J. Parks Community Center youth program has consistently shown great improvement with each passing year. It's our passion to mentor each child and watch them grow in all aspects of their lives.
